

Setting Up Application Environment

Team ID	PNT2022TMID04674
Project Name	Skill/Job Recommender Application

Create a Flask project

The screenshot shows a code editor with a dark theme. The left sidebar contains icons for Explorer, Search, Source Control, Run and Debug, Remote Explorer, Extensions, Testing, Docker, Containers, and Settings. The main editor area displays the following Python code for `app.py`:

```
1 import json
2 import os
3 import re
4 import ibm_db
5 from flask import Flask, redirect, render_template, request, session, url_for
6 from sendgrid import SendGridAPIClient
7 from sendgrid.helpers.mail import Mail
8
9 app = Flask(__name__, template_folder='template', static_folder='template/static')
10 app.config['SESSION_TYPE'] = 'memcached'
11 app.config['SECRET_KEY'] = 'super secret key'
12
13 session_username = ""
14
15 hostname = ''
16 uid = ''
17 pwd = ''
18 driver = "{}"
19 db = ''
20 port = ''
21 protocol = ''
22 cert = ''
23
24 dsn = (
25     "DATABASE = {0};"
26     "HOSTNAME = {1};"
27     "PORT = {2};"
28     "UID = {3};"
29     "SECURITY = SSL;"
30     "SSLServerCertificate = {4};"
31     "PWD = {5};"
```
