

Developing a chatbot and Integrate with App

Team ID	PNT2022TMID04674
Project Name	Skill/Job Recommender Application

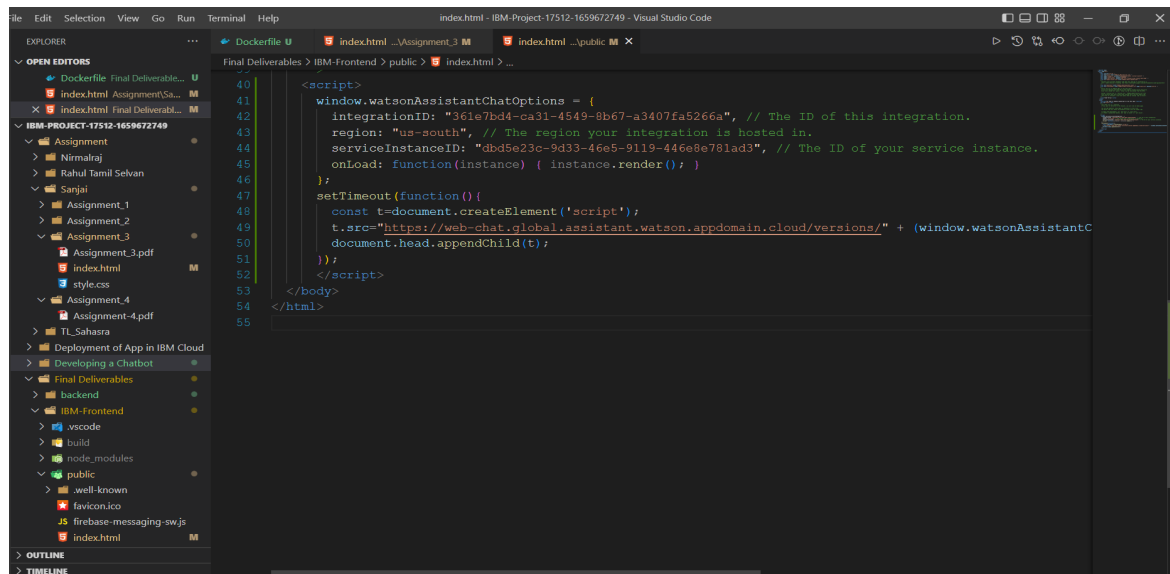

Build chatbot:

Chatbot link:

<https://web-chat.global.assistant.watson.appdomain.cloud/preview.html?backgroundImageURL=https%3A%2F%2Fus-south.assistant.watson.cloud.ibm.com%2Fpublic%2Fimages%2Fupx-dbd5e23c-9d33-46e5-9119-446e8e781ad3%3A%3A48833fe9-33a9-4025-b944-2ef0cf3a020b&integrationID=361e7bd4-ca31-4549-8b67-a3407fa5266a®ion=us-south&serviceInstanceID=dbd5e23c-9d33-46e5-9119-446e8e781ad3>

Integrate with our application:

The screenshot shows the Visual Studio Code editor with a project named 'IBM-PROJECT-17512-1659672749'. The Explorer panel on the left shows the project structure, including folders for 'Assignment', 'Assignment 1', 'Assignment 2', 'Assignment 3', 'Assignment 4', 'Deployment of App in IBM Cloud', 'Final Deliverables', 'frontend', 'IBM-Frontend', 'node_modules', 'public', and 'well-known'. The main editor area shows the 'index.html' file in the 'public' folder, which contains the following code:

```
40 <script>
41   window.watsonAssistantChatOptions = {
42     integrationID: "361e7bd4-ca31-4549-8b67-a3407fa5266a", // The ID of this integration.
43     region: "us-south", // The region your integration is hosted in.
44     serviceInstanceID: "dbd5e23c-9d33-46e5-9119-446e8e781ad3", // The ID of your service instance.
45     onLoad: function(instance) { instance.render(); }
46   };
47   setTimeout(function() {
48     const t=document.createElement('script');
49     t.src="https://web-chat.global.assistant.watson.appdomain.cloud/versions/" + (window.watsonAssistantChatOptions ?
50       window.watsonAssistantChatOptions.integrationID : undefined) + "/en-US/default-v1/index.html";
51     document.head.appendChild(t);
52   });
53 </script>
54 </body>
55 </html>
```
